PROJECTS

Apply AI Participant   **2023-Present**
AI4ALL

- Gained technical & project-based skills in coding & AI on topics including data sourcing, organizing, visualization, implementation, and evaluation.

Discover AI Participant   **2022-2022**
AI4ALL

- Gained extensive knowledge of applications & fundamental technical concepts of AI including types of machine learning, gradient descent, and neural networks.
- Worked closely with team members to conduct extensive research and investigate ethical implications related to data processing & AI implementation, recommending insightful actions.

TECHNICAL SKILLS

- HTML
- CSS | SCSS | LESS
- Bootstrap
- JavaScript
- React.JS Framework
- Next.JS
- Node.JS
- MongoDB
- RESTful API
- MySQL
- Solidity
- C ++
- Java
- Python
- Mac | Windows | Linux
- Microsoft Visual Code Studio
- MS Office Suite
- Git | GitHub

CORE COMPETENCIES

- Stellar Customer Service & Support
- Project Management
- Back-End & Front-End Development
- Artificial Intelligence
- Machine Learning
- Blockchain & Web3 Development
- Agile Framework
- Software Best Practices & Methodologies
- In-depth Research & Documentation
- Troubleshooting & Testing
- Database Management Systems
- Data Statistics & Trend Analysis
- Eagerness to Learn New Technologies
- Interdepartmental Collaboration
- Coaching & Mentoring
- Strategic Planning

SOFT SKILLS

- Leadership & Teambuilding
- Excellent Communication
- First-Rate Attention to Detail
- Accuracy & Thoroughness
- Complex Problem-Solving
- Organization & Time Management
- Multitasking & Prioritization
- Integrity & Accountability
- Self-Motivated

CERTIFICATIONS

Full Stack Developer Certificate   **2019**
Thinkful Inc.

- Improved web development abilities by completing multiple capstone projects in JavaScript using HTML, CSS, jQuery, AJAX, NodeJS, MongoDB, React, Redux, Mocha testing, and JavaScript Web Token Authentication.
